Fund Credit quality ratings, identified by the 'f' subscript, are assigned to bond funds and other actively managed funds that exhibit variable net asset values. These ratings are current assessments of the overall credit quality of a fund's portfolio. The ratings reflect the level of protection against losses from credit defaults and are based on an analysis of the credit quality of the portfolio investments and the likelihood of counterparty defaults.

Management

The county of Contra Costa, California, was incorporated in 1850 as one of the original 27 counties of the state of California and is one of nine counties in the San Francisco-Oakland Bay Area. The Contra Costa County Investment Pool is managed by the Treasurer/Tax Collector, which acts as a depository for more than 40 units of local government, including funds of the county school districts, special districts, and other entities. The county maintains a contract with The Bank of New York Mellon to provide custodial services for the pool.

The primary objective of the pool is to safeguard the principal of the pool under its control. The secondary objective is to meet the depositors' liquidity needs. The third objective is to achieve a return on the pool under its control. The Contra Costa County Investment Pool operates under a directed investment policy in which the withdrawal of funds in the Treasury shall coincide with investment maturities or authorized sale of securities by the local agency's legislative or governing body.

Credit Quality

The pool's credit quality is managed to maintain an overall quality of 'AAA'. Short-term investments are typically limited to issuers rated 'A-1/P-1' or better, and long-term investments are typically limited to 'A' or better. The weighted average maturity of the pool is typically managed to around 180 days.

Portfolio Assets

The Contra Costa County Investment Pool is invested in accordance with the county's investment policy and the state of California's government code. Based on these guidelines, the pool is generally invested in U.S. Treasuries, U.S. agencies, municipal bonds, money-market instruments, repurchase agreements, banker's acceptances, commercial paper, negotiable certificates of deposit, corporate notes, medium-term notes, and time deposits. The pool also consists of investments managed by outside contractors, which includes Local Agency Investment Fund (LAIF), Wells Capital Management, and CalTRUST.

The fund's 'AAAf' rating signifies that the pool's portfolio holdings provide extremely strong protection against losses from credit defaults. The fund's 'S1+' volatility rating indicates the pool's extremely low sensitivity to changing market conditions. Pools rated 'S1+' possess an aggregate level of risk that is less than or equal to that of a portfolio comprised of the highest-quality, fixed-income instruments with an average maturity of one year or less. In order to maintain current and accurate ratings, we monitor the portfolio holdings monthly.
